June 8, 2017

Present: Board: President, Pat Beauchamp; Treasurer, Vicki Sowa; Secretary, Wendolyn Tetlow; Director, Barbara Tardiff; Director, Virginia Lewis; Director, Dani Beauchamp.

Members: Pat Bernat, Diane Culter, Emily Culter, (on the phone: Ernie Genaw, Lori Genaw), Linda Lavolette, Coleen Lake, Katrina Lessard, Dick Lyle, Jean Lyle, Chris Nelson

The meeting was brought to order at 7:00 p.m. by President Pat Beauchamp.

Reading of the Minutes: Wendolyn summarized the May 2017 minutes which was accepted as summarized.

OLD BUSINESS:

- 1. Debrief of Spring Agility Trial:** The UKC Spring Agility Trial was lots of fun, even though it poured rain on Sunday, May 21. There were many Q's at the trial and some teams titled. The club cleared \$214.69; entry fees income was \$1,966. The biggest expense was the judge's fee, \$613.90. The motel was \$191.34, which is considered high, so the club decided to seek a different venue for subsequent trials.
- 2. Nosework Match, June 24:** Jean Lyle said that all worker positions have been filled. There will be a working session on Friday, June 23, so **NO PRACTICE** in the club facility on **June 23 and 24**. The facility must be cleaned and hide places identified on the Friday before the match. Jean also said that the club will most likely become licensed by UKC to hold nosework trials. The club is planning to hold a UKC nosework trial in 2018. The date has not yet been approved, but the club is asking for the weekend of September 22-23. Jean will be the secretary for this trial and we need a volunteer to be chairperson (most of the work is already completed). Anyone volunteering for a nosework trial officer position cannot participate in the events. This might be a good opportunity for a non-nosework person to get involved.
- 3. Status of the Hannahville Grant.** The club did not receive grants monies from Hannahville. No explanation was provided.
- 4. How to Proceed with the Fencing Project:** The club is committed to spending the Community Foundation funds (\$1500) to purchase the fencing materials, per application to the Community Foundation. Clarifications were made at the meeting about the appropriate measurements of the area to be fenced, as well as which materials to be

used (not the old wooden fence, but some of the chainlink parts from the former animal shelter). Pat Beauchamp said that Virginia had contacted Ken about putting up the fence, and he is available the week of June 18.

After some back and forth discussion about how to proceed with the fencing

project, it was suggested that club members construct the fence themselves. Advantages and concerns were discussed. Chris Nelson (using Jean's phone) called the Genaws, who were traveling, to get a commitment from Ernie about taking the lead on the fencing project and using club volunteers to construct the fence—rather than using a handy man to construct the fence. The following is the result of the discussion:

- The club voted and approved members' volunteering to put up the fence.
- Ernie Genaw will be Project Manager for the construction of the fence.
- Chris Nelson will be Supervisor and will organize volunteers.
- Ernie and Chris will purchase materials from Menards using the Lyle's materials list, possibly taking advantage of sales, and using the club's credit card.
- Various members volunteered expertise in putting up chain link fences and offered use of equipment—post hole diggers, tools, etc.
- Barb Tardiff will get the building permit from the County and call Miss Dig.
- Virginia should let Ken know that we won't need him after all.
- Chris Nelson knows someone who will come take away the wooden fence.
- Barb said she will take care of the black plastic.
- Wendolyn will write to the Community Foundation for release of grant funds.
- Work on the fencing project should begin as soon as possible.

5. Fall Agility Trail—uneven club grounds (rocks, etc.): One of the justifications for fencing the club's properties is to hold agility trials on the club's grounds rather than leasing space elsewhere. Club members noted the uneven ground (rocks, holes) and said that it might not be possible to hold the trial on club property this fall. Barb said, however, that BDNKC had already committed to UKC to hold the trial on BDNKC property. So, the club decided to hold a Work Bee to clear the property of holes, unevenness, rocks, etc. More on this event soon.

6. Work Hours: The work year begins September 1st and ends August 31st. Pat Beauchamp noted that two Gold members with physical challenges are not required to clean, but they still have to earn their 15 hours. Another clarification about work hours: Therapy Dogs can earn 7.5 hours a year per member/dog. Reminder to Gold members: If you don't clean the facility when you are scheduled to do so, you will lose your Gold privileges. If you don't earn your work hours, you lose your Gold privileges. Once you have earned your work hours and cleaned, you can regain Gold privileges.

7. Wall of Fame: The Lyles have volunteered to create the Wall of Fame again this year.

8. Ludington Park doggie bags: Laura Strom has kindly volunteered to take over the job from Ruth O'Toole who is moving from the area.

9. Cutting the BDNKC grass: Diana Wells has kindly volunteered to cut the club's grass every two weeks. Because of the amount of rain this year, the club needs a volunteer to cut the grass on alternate weeks when Diana is not cutting. A volunteer should probably coordinate through Diana.

10. Other: Diane and Emily Culter volunteered to help with the website, cutting grass, and acquiring award ribbons. Emily is picking up her terrier puppy in the next month.
